For : PRINTING MECHANISM WITH TEMPERING DEVICE

**REQUEST FOR ENTRY OF SUBSTITUTE SPECIFICATION  
FOR SCANNING AND PUBLICATION**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Applicants submit herewith a Substitute Specification (identified as "P23910.S03" and "Substitute Specification" in the header) in compliance with 37 C.F.R. 1.52, 1.121(b), and 1.125.

In particular, because the executed application includes handwritten changes by the inventors, the instant Substitute Specification, which includes the claims and Figures, is presented entirely in typewritten form for scanning, publication of the application, and properly storing the application.

Further, Applicant notes that, as the Substitute Specification additionally incorporates only the handwritten text from paragraph [0055] of the executed application, which was initialed and dated by the inventors in the margin adjacent the changes, the Substitute

Specification does not raise any question of new matter and is fully in compliance with the Patent Office rules.

Moreover, Applicants submit that the originally submitted and executed application, which includes the handwritten text should suffice as a marked-up copy of the application.

Accordingly, entry of the concurrently submitted Substitute Specification in place of the concurrently submitted executed specification is requested, so that examination is based upon the Substitute Specification.

If there are any questions with regard to this matter, the Examiner is invited to contact the undersigned at the telephone number listed below.

Respectfully submitted,  
Reinhard STÜBER, et al.
